1	Never been much at TEI but the city and it's people are amazing! I loved the house where we were staying!	May 24, 2011 4:43 PM
---	---	----------------------

Page 3, Q2. Any comments:

1	Although there were no direct flights at this time of year thus making it more expensive to travel.	Mar 28, 2011 6:48 PM
---	---	----------------------

Page 3, Q2. Any comments:

2	although 2 flights were required!	Mar 28, 2011 6:04 PM
---	-----------------------------------	----------------------

Page 4, Q3. Comments:

1	I didnt do any language study in Holland The language study in Greece started 2 weeks before leaving so not really usefull	May 24, 2011 4:44 PM
---	--	----------------------

2	The Greek classes only started two weeks before we left.	Apr 14, 2011 2:31 PM
---	--	----------------------

Page 5, Q5. Comments:

1	The residence we stayed was one of the best things that happened to me in Athens. Very nice.	Apr 14, 2011 2:32 PM
---	--	----------------------

Page 6, Q5. Comments:

1	The traveling was really cheap but very crowded i think the strikes were a pity	May 24, 2011 4:46 PM
---	---	----------------------

2	Because of the strikes, it wasn't always that easy to go to school for classes or to the hospital for placements. Because of the strikes, we had to take taxis so many times, it became expensive to get there.	Apr 14, 2011 2:35 PM
---	---	----------------------

Page 7, Q3. Comments:

1	food was okay only when you want to go out the drinks are really expensive (5-8euros for a normal beer)	May 24, 2011 4:47 PM
---	---	----------------------

2	We were glad we had the school food card, so we could have our food for free in a student restaurant near our residence. In the shops, stuff like milk and yoghurts and drinks were really expensive. Going out was at least dubble price as at home.	Apr 14, 2011 2:36 PM
---	---	----------------------

Page 8, Q2. Comments:

1	School didnt organise anything only lessons and the hospital work. the social activities were organised by athensmus and esnkapa or the house were we lived	May 24, 2011 4:48 PM
---	---	----------------------

2	School didn't arrange anything. There was nothing we could take part of. The only cultural thing we did, was going to the acropolis museum. We had to go	Apr 14, 2011 2:38 PM
---	--	----------------------

Page 8, Q2. Comments:

on the Acropolis by ourselves.

Page 9, Q2. Comments:

1	my bag was stolen during going out so i had no passport but the ambassady helped me with that	May 24, 2011 4:49 PM
---	---	----------------------

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

1	nb 3 only at Hygiae not at 251 Military Hospital	May 24, 2011 4:50 PM
---	--	----------------------

Page 12, Q1. In relation to your theoretical lectures and other teaching sessions during the programme please rate the following.

1	we didnt had much lessons and most of the stuff we already done that	May 24, 2011 4:51 PM
2	The theoretical component was rearly there. We had a MRI-class in the beginning, and we were told we would have more of this classes, but they never came.	Apr 14, 2011 2:42 PM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very impornat and will help guide future students in making their choice.

1	I loved being in Greece The people the house the food the islands Naufplio Delphi were so nice The programme was very relaxed only we had a bit of bad luck with the strikes I love Greece and I go back deffinitely	May 24, 2011 4:52 PM
2	The programma was supposed to be about CT and MRI, but the most interesting class was the mammography class. It was a great holliday, but I were bored by moments. We weren't taken to other citys or old places, we had to go there by ourselves. I think the programme didn't excist, classes were only arranged one day before and we never knew what they would be about. The programme was very badly arranged.	Apr 14, 2011 2:46 PM
3	I really enjoyed my erasmus experience. I learned very valuable information in relation to radiography and met lots of new people. I experienced a different culture and had the opportunity to travel to many places. I would strongly recomend erasmus to every student! everyone should grab the opportunity with both hands!!!	Mar 28, 2011 6:54 PM
4	ERASMUS was the best decision ever. You get the chance to meet new people and experience new things. The only problem was the fact that the semester had not started when we arrived and so the ERASMUS outings organised by the college only started when it was time to leave!	Mar 28, 2011 6:10 PM

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

1	we were not allowed to do a lot so we could only watch	Apr 11, 2011 7:13 PM
---	--	----------------------

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

1	I have had a great time on whilst on the exchange and would do it again if I had the chance. I've met a lot of new people from different countries who were all following a different course and became good friends with them. The other people from the erasmusgroup, two girls from ROI, we didn't see much unfortunately. The placement were fairly short, if we had another two weeks I wouldn't really care about that. During the placement I've learned alot at the radiotherapy department, this because I never had any practical experience in radiotherapy, so it was very interesting. The placement in radiology was interesting because there were a lot of differences we encountered here, which made it confusing at some times. But I have had a great time in Northern Ireland an would do it again if I ever have the chance.	Apr 13, 2011 11:41 AM
2	My experience was GREAT, i met loads of great people and had an awesome time with them. my english improved a lot and i would go again if i could.	Apr 11, 2011 7:15 PM
3	My overall impression was great! I met alot of people (mostly other internationals) and had a great time. The Irish people were very nice and helpful and that made this exchange even better.	Mar 31, 2011 1:28 PM
4	I felt that the radiography component of the erasmus programme in vienna was excellent and taught very well. The lecturers were all very friendly and helpful and were very accommodating when it came to our timetable. The international office, however, could have been better and were not very helpful with queries that we had, therefore, a lot of the time we had to find out how to solve these problems by ourself.	Mar 31, 2011 8:56 AM
5	In my opinion, the Erasmus exchange programme was a very worth-while, valuable and enjoyable experience. I loved meeting new people, working in a different clinical setting. I gained great satisfaction and experience from living in a new city, and really became independant. I would highly recommend the programme in Belfast to others.	Mar 24, 2011 6:43 PM
6	I thoroughly enjoyed the programme and felt it was a great learning experience both personally and professionally.	Mar 23, 2011 3:33 PM
7	in this program we have a lot of free time, which is excellent. we had enough time to go on weekendtrips and do other cultural activities. We also had to do 2 presentations and some written assignments, but you have also enough time for that. I've really felt at home these past 3 months. you meet many other international students, so you have a lot in common with eachother. Then there is also the clinical placement, but everyone is vey relaxed and they know we're here for exchange, just to see how things work in another country.	Mar 23, 2011 3:24 PM
8	The erasmus programme is ideal to study abroad. I would recommend it to other students.	Mar 23, 2011 3:22 PM

Page 2, Q2. Any comments:

1	The cost of living can be an obstacle for many students.	Apr 2, 2011 4:10 PM
---	--	---------------------

Page 3, Q2. Any comments:

1	Easy, but it was necessary a lot of time !! :)	Apr 4, 2011 4:30 PM
---	--	---------------------

Page 4, Q3. Comments:

1	The language study we had was limited to learning some words or sentences. It would be very interesting to learn the basics of the Norwegian language as well, though I admit that it is not easy to learn all those things in the limited time we had.	Apr 12, 2011 4:22 PM
2	I don't understand these questions. So I answered the same for both.	Apr 4, 2011 4:32 PM

Page 6, Q5. Comments:

1	The school and my studenthome were at the same building and to the hospital I walked 5-10 min	Apr 12, 2011 6:52 PM
2	Staying at Haukelandsbakken made it very cheap to go to the school or to the University Hospital. Though, I had to go to Legevakt in the city centre for one of my practice periods and that made it necessary to buy a (rather expensive) bus card for one month.	Apr 12, 2011 4:24 PM
3	Number 2 and 4 I answered very cheap, because I was so close to the school and to the Hospital, that I didn't need to catch a public transport. And this fact it was really nice.	Apr 4, 2011 4:35 PM

**Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?
Your written comments are very important and will help guide future students in making their choice.**

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

	cared about the students, and they are very flexible. It is a good experience!!!	
2	It was a very nice experience where I also learned a lot, specially concerning the practice period. Some more activities organised by the school could have been nice, specially at the very beginning when the weather is bad and we are still all new to the area.	Apr 12, 2011 4:28 PM
3	It was one of the greatest experiences of my life. It's perfect for the ones who have an adventurous spirit. If you they don't have it, they will get one.	Apr 5, 2011 9:43 PM
4	it was a really nice and interest experience, and I hope that more students can do it in the future, especially in this amazing city that is Bergen.	Apr 4, 2011 4:41 PM
5	It was a fantastic experience that I recommend to all students.	Apr 2, 2011 4:17 PM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

- | | | |
|---|---|---------------------|
| 1 | The erasmus exchange was an unbelievable experience.. the experience of a lifetime!! the friends I have made there will always be part of my life!!! Seeing new places, experiencing new cultures, meeting new people from all around the world, it has helped me to grow immensely in such a short time! I would recommend erasmus exchange to everyone, especially Brussels, I think it would be beneficial to every kind of person! I absolutely loved every moment of it, and plan to return to Brussels when I'm qualified!! Belgium is an amazing country! I felt so at home there. The college, the class and everyone that was part of my erasmus was absolutely wonderful. I will never forget the memories we made. I want to thank everyone who is part of the erasmus radiography group for making this opportunity possible! Brussels Erasmus 2011 ... the best three months of my life!!! | May 3, 2011 9:49 PM |
|---|---|---------------------|

- | | | |
|---|---|-----------------------|
| 2 | It was an amazing three months. Everyone was very welcoming. The staff at the university were great and especially our erasmus coordinator. He was very helpful to all of us and took us on several tours. It was brilliant | Apr 14, 2011 6:30 PM |
| 3 | Was everything that I expected and much more. Everyone should experience do Erasmus mobility, it's the best way to improve the social skills and to open our minds. | Apr 10, 2011 12:12 AM |
| 4 | You learn to be more self-disciplined, and how to balance it with the social life. The programme is unique because of its duration and in many ways it was too short. But its absolutely worth t :) | Apr 9, 2011 11:51 AM |

country.

5 Rather than received , it was the information provided on the electronic sites Mar 29, 2011 6:55 PM

Page 3, Q2. Any comments:

1 There is no airport in Coimbra so I had to fly to Lisbon, get a taxi and then a train to Coimbra where my tutor collected me and drove me to my apartment. It was a long day of travelling. Mar 30, 2011 5:32 PM

2 We had all informations that we needed to get here. Mar 30, 2011 10:53 AM

3 From Malta there is no direct flight and so had to take 2 flights, basically a half day of travelling and it is very tiring. Mar 29, 2011 6:57 PM

Page 4, Q3. Comments:

1 No study done on the language in home country and we only got 6 hours of portuguese language study in host country. Definetly would recommend having a pocket guidebook or phrase book with you. Mar 30, 2011 5:32 PM

2 No quality lessons at all in the host country. I have only seen some internet site during the lesson. Mar 29, 2011 9:22 PM

3 at the host country we had two lectures about basic language and culture, more lectures of the basic language would have been helpful Mar 29, 2011 7:00 PM

4 We don not have any language study, but we're prepared in english language as everything we do is in english. Moreover, only few hours were dedcated in the host country in teaching portuguese Mar 29, 2011 6:57 PM

Page 5, Q5. Comments:

1 Was living with a family and two other students so it took a while to get used to. Mar 30, 2011 5:33 PM

2 The price was ok, but we didn't have internet and we also missed the washing machine. Mar 30, 2011 10:53 AM

3 We did not have internet and washing machine, otherwise the apartment was good. Mar 30, 2011 10:26 AM

4 Bad points of the comfort of living accomodation are: no internet en no washing machine. Mar 29, 2011 9:24 PM

5 I would prefere internet and a washing machine in my apartment, i think they are basics. Mar 29, 2011 9:22 PM

6 the only drawbacks about the accomodation were no internet and no Mar 29, 2011 7:02 PM

Page 5, Q5. Comments:

washing machine.

- | | | |
|---|--|----------------------|
| 7 | Regarding accomodation the two things I have to complain about are that we have no interent and no washing machine available in the accomodation. | Mar 29, 2011 6:59 PM |
| 8 | Acomodation was arranged by Prof. Santos of the Host institution for which I am very grateful. It was a great choice for accomodation living with a host family. They made me feel at home right away. | Mar 29, 2011 6:51 PM |

Page 6, Q5. Comments:

- | | | |
|---|---|-----------------------|
| 1 | We got a monthly bus card for 18euro and we could travel on the buses as many times as we liked. The college and one of the hospitals was walking distance from my house. The other hospitals was 20 and 40minutes on a bus so it was good. | Mar 30, 2011 5:35 PM |
| 2 | Very good connections with the bus. | Mar 30, 2011 10:27 AM |

Page 7, Q3. Comments:

- | | | |
|---|--|----------------------|
| 1 | It was very cheap to eat out and there are loads of restuarants to choose from with really good food. The nights out were very cheap compared to home. A small glass of beer is 1euro in all the bars and the taxi home would cost about 7euro but we could get one of the late buses into the town so no taxi was needed to get in. | Mar 30, 2011 5:37 PM |
|---|--|----------------------|

Page 8, Q2. Comments:

- | | | |
|---|--|----------------------|
| 1 | One of the first days here we had a walking tour and traditional portuguese dinner with the tutor and class. Also had a day trip to Porto with some other students from the college. An erasmus party and dinner was organised in the college with loads more colleges. It was a full day event: a bus tour of the city, a dinner, karyoke and a concert after. It was organised in the last weeks of being here but was still very good. We joined the ESN in Coimbra were trips were organised and lots of parties to meet new students from the university. Because most erasmus students dont arrive until the start of Febuary the trips were not until then so January we just organsed things within our own group. | Mar 30, 2011 5:45 PM |
| 2 | We went above to the university but didnt get the time to visit anything we had to go back for it. The same during the trip to porto. | Mar 29, 2011 9:25 PM |
| 3 | more social activities would have been better :) ut the ones that were organized were very good | Mar 29, 2011 7:05 PM |

Page 9, Q2. Comments:

2	the only problem that I had was that my luggage took 2 weeks to arrive, so then it was solved	Mar 29, 2011 7:09 PM
---	---	----------------------

Page 10, Q2. Comments:

1	Yes we received ERASMUS funding 300eur per month, and additional funding from home institution 150eur.	Mar 30, 2011 10:57 AM
2	We recived 450 euros together per month.	Mar 30, 2011 10:30 AM

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

1	Language was a barrier however I managed to work normally in the department with the help of the tutor.	Mar 30, 2011 5:45 PM
2	In some clinical places we felt like one of the members, but in some I think that we weren't!	Mar 30, 2011 10:58 AM
3	I did not feel like a member of the team in some of the placements because of the language barrier but in some placements I was still involved in the clinical environment, it depended in which placements.	Mar 29, 2011 7:17 PM
4	I felt like a member of the team while in clinical.--- sometimes i felt left out as they spoke portuguese without understanding anything.	Mar 29, 2011 7:01 PM

Page 12, Q1. In relation to your theoretical lectures and other teaching sessions during the programme please rate the following.

1	I wish we had more lectures because the ones we did receive were very useful and I learned a great deal from them.	Mar 30, 2011 5:45 PM
2	We learned a lot, all the lectures were interesting, but I expected more lectures.	Mar 30, 2011 11:00 AM
3	Theoretical lessions were very good, but I expected more hours.	Mar 30, 2011 10:33 AM
4	In the lessons of the other teachers we learned a lot. But from the youtube lessons of our own teacher we did not learn anything usefull.	Mar 29, 2011 9:28 PM
5	It would have been nice to have more lectures because they were very interesting and of a high level.	Mar 29, 2011 7:19 PM
6	The theoretical component of the exchange met my expectations. --- iw ish i had more theory lessons were i could widen my knowledge	Mar 29, 2011 7:02 PM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?
Your written comments are very importnat and will help guide future students in making their choice.

1	I would definately choose Coimbra again. The clinical placement in the three	Mar 30, 2011 5:52 PM
---	--	----------------------

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

CT departments gave me great experience. The workload wasn't overwhelming but we had a large project and presentation at the end which we could work on throughout the 3 months. There were 9 of us in total in the group so we all got to know each other very well by having dinners together and going on trips. I would really recommend joining the ESN at the beginning because they provide great information, set you up with a phone and you get to know loads more people in the university with their organised trips and parties. I thought we were all going to be living together in the one apartment but we got split up so I was living with the family, however there were pros and cons to both places. We got to know the family really well and had a few dinner parties with them and really enjoyed the times we spent with them.

- | | | |
|---|--|-----------------------|
| 2 | I think that Portugal is a good choice for Erasmus exchange, prices are similar, people are nice. Students' night life is good. Landscape is beautiful, weather is nice, in the middle of February we had 20 degrees. We don't regret choosing Portugal for Erasmus exchange. | Mar 30, 2011 11:04 AM |
| 3 | Coimbra is a very nice place to be in Erasmus exchange. Erasmus students are good excepted, whole programme is very good. We had a lot of activities, special welcome party was organised. Portugal is a very beautiful country, we enjoyed a lot. | Mar 30, 2011 10:41 AM |
| 4 | It was a good personal experience, a once in a lifetime experience! But it was different than what I expected. I expected more classes and no YouTube lessons. I expected more language classes, but we had only 3 hours. The rest was cancelled. And we had less clinical placement. There were weeks that we had only 6 hours. I like the Portuguese culture, it was a great experience to live somewhere else with other people from other countries! | Mar 29, 2011 9:31 PM |
| 5 | It was very learningful to live somewhere else than my parents' home. I would like to know if I would be able to live in another country and now I know the answer. It was a learningful experience to see the differences in technique here in Portugal vs my home country. | Mar 29, 2011 9:30 PM |
| 6 | It was a very positive experience from both the academic and the social aspect :) | Mar 29, 2011 7:25 PM |
| 7 | Coimbra is a very good place to do Erasmus! I was really expecting more theoretical way of studying. On the clinical placement should be everywhere like this, that students can help at all procedures. | Mar 29, 2011 7:09 PM |
| 8 | It was good. However, as pointed earlier I wished we had more theory, as I was interested in learning more about computed tomography. However, this was limited only to few lessons. However, the education here is very high and the professors were highly knowledgeable. | Mar 29, 2011 7:04 PM |
| 9 | Loved every moment of it. I have no problem suggesting Portugal to future students looking to go on ERASMUS. | Mar 29, 2011 6:56 PM |

1	<p>We had a lot of homework that didn't allow us any time to see the country that we visited. The clinical practice was BRILLIANT, we learned a lot there and the people working there were very helpful and really wanted to teach and share knowledge with us. The theoretical bit, was really boring, didn't offer anything to me but a ton of homework, assignments and presentation for me to do. The selected subject was overlooked and we hardly spent any time in lectures on that. The subject given from the school (intervention) was fed to us a lot and very poorly. Again it annoyed me that we had a lot of homework on intervention and 2-3 full weeks of lectures on it and not as much on the selected subject (CT) where I think we had tops 4 hours of lectures.... We didn't have enough time of and we haven't seen the country. And that is a shame because Ireland is one of the most beautiful countries in the world in my opinion. Also the fund that was given wasn't enough for the expensive way of life and barely paid just for the rent. All the other expenses were paid by my pensioner mom. They weren't organised and they changed the dates of the visit here and we had to pay extra money to change our plane tickets many times. Sometimes they wouldn't answer to e-mails we send fast enough of sometime they didn't answer to all the questions there but just one of them. The home institution was VERY NOT HELPFUL. We didn't get any help from Greece on any part of the Erasmus either prior or during the visit... We weren't allowed to take our exams before we left the country or during the Erasmus program and in the end we all lost our semester. This was really annoying for us because we really had to pass some lessons. The</p>	Mar 24, 2011 12:49 PM
---	--	-----------------------

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

Greek coordinator was not helpful and all he said was that we gonna have fun fun fun. In the end we didn't. We had lessons. Because he doesn't do anything for the Erasmus students there that doesn't mean that we didn't have lessons here. I really hope this is anonymous and taken into consideration. Thanks

2 It was fool of clinical, no lectures of CT which was the main reason I came to Ireland. Instead of lectures there were only e-learnings and projects. There was no free time for me to see Ireland and its beauties and I can say that I was treated worse than the Irish students because when they had holidays I had to be at the hospital every morning. I also have to mention how not friendly and willing to help were the Irish students to a student from an other country that couldn't speak the language. The funding was less than nothing and could barely help me with my renting. When I selected a course I chose PET/CT but just before my trip the host college changed it. Also I had a communication with the co-ordinator of the host college and he had guaranteed about the dates of the program but a month before my departure the dates were changed so I had to change my flying tickets and I had to pay money for it. Mar 24, 2011 12:47 PM

3 Too little practical experience for the amount of clinical that was provided. The preference clinical placements were really interesting and should be expanded. The forensic part was very good and I learned a lot in those lessons. But it should be possible to have more practical experience on forensics not everyone has had that experience. The last thing is the fact that clinical practice as the last week is not a good ending for an erasmus programme, there should be a lot more time to explore Ireland in general! Mar 24, 2011 12:44 PM

4 I was impressed by how much I was able to learn and how many opportunities of different placements we were given. I was also very happy with the radiographers' help during placements. They made me feel like I was part of the team and they trusted me into doing things under their guidance and even on my own. What I was dissatisfied about was having too much work and too many placements. Otherwise it was a great experience and it taught me so much. I believe I am going back home a grown mature woman. I have learnt to deal with major problems on my own (needed hospitalisation due to asthma and phoned an ambulance alone and went to the hospital alone), I looked after myself, cooked, cleaned, studied, participated in school and have also had time to visit beautiful places in such an enchanting country. Will miss it. Mar 24, 2011 12:44 PM

5 The programme was extremely interesting, in which I learned various aspects of radiography. I got to see very interesting procedures in neurointervention, vet radiography and several procedures in angiography which are not performed in my country. on top of that, I also got an insight of what living and your own really means, and caring for your own issues. A little bit more free time would have been grand, to explore more of this beautiful country => overall, it was a great experience ! Mar 24, 2011 12:42 PM

6 We had to work a lot because of the essays and exams but gained knowledge by doing so. In clinical placement I'm used to be trained in the field instead of being in a more observatory role so this was often a little boring for me, especially at RNI and PET/CT because I can't inject and prepare radiopharmaceuticals in Ireland. The programme itself was very good organised and I could always contact the coordinators in case of any queries. Also the people are all very nice and well behaved compared to Belgium. Mar 24, 2011 12:37 PM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

7	It was a good experience, but if you see other countries we have too much work and less free time. We needed to visit the country in the weekends and that was not enough time. They should do it like in other countries: a lot more free time to explore the country and less clinical placement. 1 or 2 weeks less clinical placement. I wouldn't change the amount of lessons in the school. Just more time to explore Ireland and to work on the thesis and stuff from home. I had a nice time here :D	Mar 24, 2011 12:35 PM
8	The all experience of the interventional radiography was really good to improve our skills. Good hospitals and resources. Next year try to give more free time to erasmus students in order to know the irish culture.	Mar 24, 2011 12:33 PM
9	It was a nice experience to learn some things regarding to the interventional radiography. I think you should give more free time to possibilite the erasmus students to know the country and have more cultural exp[erience as well.	Mar 24, 2011 12:29 PM

| 1 | Food and drink was similar to the price at home. We cooked a lot and drank in before going out to save money. Although the food and drink out was similar to home it was still quite expensive. | Apr 7, 2011 12:09 PM |
| 2 | Alcohol is more expensive in Netherlands | Apr 7, 2011 12:07 PM |

Page 12, Q1. In relation to your theoretical lectures and other teaching sessions during the programme please rate the following.

- | | | |
|---|--|----------------------|
| 1 | I learnt a lot about MRI. However, I was under the impression the course contained MRI and PET CT. It did not. | Apr 7, 2011 12:11 PM |
|---|--|----------------------|

**Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?
Your written comments are very important and will help guide future students in making their choice.**

- | | | |
|---|---|----------------------|
| 1 | Erasmus in Eindhoven was a great opportunity. We did a lot and learnt a lot. There were only four Erasmus students and a bigger group would have been nice. | Apr 7, 2011 12:14 PM |
| 2 | The overall experience was invaluable. I really enjoyed my time in Eindhoven. This is a great placement site to go to for ERASMUS. The Dutch people are very friendly and I learnt a lot. | Apr 7, 2011 12:12 PM |
| 3 | Very interesting and fun | Apr 7, 2011 12:06 PM |
| 4 | i enjoyed the overall erasmus programme. although challenging i gained a lot of knowledge both academically and culturally. | Apr 7, 2011 12:06 PM |

1	budgeting was difficult with expenses of transport etc and desire to do activities.	Apr 6, 2011 12:19 PM
---	---	----------------------

2	It was not ERASMUS funding however our government supplied us with an amount of money, as we enrolled on a direct exchange programme.	Apr 6, 2011 11:51 AM
---	---	----------------------

3	if my parents didnt help me financially i wouldnt have been able to complete this.	Apr 6, 2011 11:45 AM
---	--	----------------------

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

1	As the hospital i was based in was very similar to my home institution I do not think i developed my clinical skills much. Some of the other students got to see much much more than myself. However, I still enjoyed my placement and felt like a member of the team.	Apr 6, 2011 12:21 PM
---	--	----------------------

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

2	fantastic experience and program	Apr 6, 2011 12:13 PM
3	I feel tha clinical placement was too short as we only had 3 days placement	Apr 6, 2011 12:02 PM
4	I would've like to have more time on clinical placement	Apr 6, 2011 12:02 PM
5	I was very satisfied with the staff organisation in the hospital at Nieuwegein. The only complaint would be that it was quite far away, nevertheless it was a worth it experience so I do not regret it that much	Apr 6, 2011 11:56 AM
6	They didn't want to speak English at my hospital	Apr 6, 2011 11:53 AM
7	the language barrier should not be a big issue. in my opinion, it;s a must that professional people at least UNDERSTAND English. Another point, the hospital should be close to where we live	Apr 6, 2011 11:49 AM
8	the language barrier was a big issue, most of the radiographers did not know any English	Apr 6, 2011 11:48 AM
9	Placements should be done within the Haarlem/Amsterdam area and not much further than an hour or so travelling to get there.	Apr 6, 2011 11:48 AM
10	i wasnt let to practice during my visits so i didnt develop my clinical skills. however it was nice to see the differences form Malta, but it wasn't worth it the cost of going there for not practicing.	Apr 6, 2011 11:47 AM

Page 12, Q1. In relation to your theoretical lectures and other teaching sessions during the programme please rate the following.

1	excellent lectures and excellent lecturers. Hands-on, couldn't help more. Much appreciated.	Apr 6, 2011 12:22 PM
2	Very well set out plan for teaching us ultrasound. The way it was delivered combined with the practice we were scheduled for made the learning even more effective	Apr 6, 2011 11:59 AM
3	we are not let to practice on us in my counrty, i gained a lot of experience and knowledge. very very helpful.	Apr 6, 2011 11:48 AM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very importnat and will help guide future students in making their choice.

1	It was totally worth it! We met some difficulties about housing. Generally it was an experience that I think everyone should have	Apr 11, 2011 9:03 AM
2	Fantastic experience, recommend to everyone. Cost was main issue, more advice would be needed prior to exchange on money to save etc. Accomodation in Zandvoort was basic but I think maybe for future students living in Haarlem would be a better option - more going on, more to do and see especially for students. More interactions between ultrasound group and therapy group from the beginning of the exchange as the 2 classes did not bond much until the last few weeks. However, lecturers, school and Dutch	Apr 6, 2011 12:26 PM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

students were fantastic, couldn't help more and it was very appreciated when living so far from home! I had an amazing time!

3 Brilliant experience very well put together program and a useful insight that could not have happened at home due to time constraint i.e. i couldn't have studied u/s in such depth. I would thoroughly recommend this course to anyone with an interest in Ultrasound Apr 6, 2011 12:15 PM

4 I have really enjoyed the Erasmus programme meeting people from different countries as I have made friends that I will never forget. I also have gained a greater knowledge in IMRT which I would have not had the opportunity at home. The university at inholland had amazing facilities, as their treatment planning suite gave us the opportunity to develop our skills. If I was to do this again I would find alternative accommodation as it was quite dear and poor value for money. Apr 6, 2011 12:14 PM

5 My experience on Erasmus was better than expected. The students were very welcoming and helpful. It was a great opportunity to meet new people from different cultures and hopefully I will remain in contact with them for many years Apr 6, 2011 12:06 PM

6 I think that everyone should have the opportunity to do this programme cause is really important for our personal and professional experience. Besides this, it's a chance to gain more autonomy, to know what are our weak or strong points, to know other people and other culture. Apr 6, 2011 12:04 PM

7 in general i had a very good exchange experience. i gained knowledge and skills here i could not receive at my home institution. But the time of exchange scheduled in the last year of study is rather stressful and i wish the exchange would last longer than 3 months. It would be better for the group spirit if the exchange students would live in the same accommodation or nearby. furthermore exchange students should receive information about how many students from other countries are going to be there, to know if they will be in groups or are coming alone! the placement here was very short and i wish it would last longer. i was very delighted by the english skills of the staff here. but i think a general dutch lesson would have been nice. more presence of the teacher in the skillslab might be better for asking questions. Apr 6, 2011 12:04 PM

8 The programme is very good and educational, especially since we don't get this opportunity in my home country. The method of teaching was bit different in my opinion. I'm used to problem-based learning, however I think we had to do too many presentations and other oral or practical assignments in the programme in the Netherlands. The subject itself (ultrasound) is very difficult and completely new to us, so it's more than enough to focus on learning how to scan, take good images and focus on the ultrasound portfolio. The presentations we had to do were very time consuming and didn't give me much knowledge. It was kind of just something we had to do, and therefore did it, without learning much from it. It would also be better if the teacher was more pedagogical without loudly naming favourites and the not so good students in our group. I also think the programme should include some classes where both the groups are together, in our case the radiotherapy group was on its own and we (the ultrasound group) were also on our own, had our own classes, practice, and so on. We didn't get to know some of the radiotherapy students till the last time here, which is a shame, because everyone should get to know each other when we're on an exchange programme. So try to have more group lessons with all the students together :D Apr 6, 2011 12:02 PM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

9	My overall impression is that I would redo all this experience again if I had too. Nevertheless, I would have probably preferred learning a bit of dutch so as to cope with even in hospital placements as not all hospitals had proficient people speaking in English. May be by learning a bit of dutch would have made my experience better, even though I still managed to start understanding the language and even say some common words.	Apr 6, 2011 12:01 PM
10	On the whole, my Erasmus experience was a very good one and I enjoyed the whole 3 months I spent here. I got to learn more about Ultrasound here and get hands on experience which we do not get to do back home. The lectures were far more interesting than what we are used to, and the constant powerpoint presentations and tasks are a great idea as they keep you on your toes at all times and gain further knowledge about the subject area. The fact that there are normally not more than 3/4 days of lectures is also a nice thing to have as it gave us enough time to go around and about the country and enjoy our stay even further. Overall...it was a great experience which I would gladly do all over again! Dank u vel!!	Apr 6, 2011 11:58 AM
11	My overall impression was very good, but I wish we had more activities with the radiotherapy group at the university. Because we didn't get to know them before later on in the exchanges time- and that was a shame. but it was a very good experience to be here and we had a fun time and learned a lot.	Apr 6, 2011 11:57 AM
12	It was a unique experience that I'll probably never get again in my life. I enjoyed everything, the country in general is beautiful and the studies. It was interesting to learn about a modality that back in Malta we don't study or even do when we are radiographers. At least now when I'm placed in Ultrasound in a clinical placement I can understand what is going on and what is being imaged. The only let down were the clinical placements because I had to travel far away and only a few radiographers knew how to speak or even understand English, so all I did was stare and trying to understand what is happening. Overall all it was an excellent experience and I do not regret anything. Thank you.	Apr 6, 2011 11:57 AM
13	I am very satisfied with my experience. Although at first it was strange since back home we do not participate this much during a lecture and do not have so much hands on. I was very happy with the programme since everything was well organised and planned in a very good way. Although we had school almost every day, still we had free time for ourselves, hence had time to see the country :). The only thing that I wasn't happy with was the clinical placement, but still I don't regret anything since at least I have an idea on the way they work here. Anyway, I'm really happy and will never forget this experience here :) Thanks for everything	Apr 6, 2011 11:57 AM
14	living in a different country will help you to grow up on a personal level. being able to study abroad also gives you an insight on the educational levels in different universities and will give you the opportunity to study with different methods than used back home. it might also help you to gain knowledge on areas which are not given that much importance back home. holland is a very nice country but with very cold weather so one must prepare for it. finally it is an experience, although I missed back home very much, this experience helped me a lot and will give me a lot of opportunities in the future.	Apr 6, 2011 11:52 AM
15	Very good programme, good teachers.	Apr 6, 2011 11:51 AM
16	I had a great time in Vienna. I learned a lot and the lectures of the radiography was very friendly and helpful. When we had some problems	Mar 31, 2011 9:02 AM

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

and questions they were always helpful. They were really great. Only it was very hard sometimes to come with questions to the people of the international office. If we had problems they didn't want to help us or they get the idea they don't want to help us. We solved our own problems, because most of the time when we went to the international office we got the feeling we were talking to the chair.

1	I had a very good time here. All the people were nicely with us, they helped us in our needs and they gave us a very good and warm welcome. The time here made me a better person and a better professional. Also opened my eyes to a new country to apply for job.	Apr 6, 2011 11:15 AM
2	Very good! Was very good met a new country, with other culture. and was good for my professional experience to work in a hospital with different way to work compared with my country. I could learn new things and met very good people.	Apr 6, 2011 11:15 AM
3	Very important	Apr 6, 2011 11:14 AM
4	It was interesting, especially during our clinical placements.	Apr 6, 2011 11:12 AM
5	A once in a life-time experience, not to be missed	Apr 6, 2011 11:10 AM

| 1 | I learned alot on clinical placement as I was rotated between four modalities and I found that the staff were very willing to explain everything to me. | Apr 4, 2011 2:55 PM |
|---|---|---------------------|

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very importnat and will help guide future students in making their choice.

- | | | |
|---|---|----------------------|
| 1 | I thoroughly enjoyed my erasmus experience in Slovenia. It was highly organised and the host co-ordinator was very involved. I felt that our needs were met and our time on clinical placement was well-rounded. I got experience in four different hospitals. Also, the theoretical aspect was built in well with clinical. The co-ordinator was very accomodating by post poning our weeks in ploacement so that we could complete a four week language course. Overall, Slovenia was very organised and the international trips made it easy to meet students from all over europe. As this country is borderd my many others, I got an opportunity to experience both Slovenian culture and the culture of its neighbouring countries. I would highly recommend slovenia fr an eramus exchange. | Apr 4, 2011 3:01 PM |
| 2 | I loved Erasmus, definitely worth it! I learnt so much, it was a great experience as a radiography student and as a young person, to go and work in another country. We were so well looked after by our erasmus co-ordinator in the host country, helping us settle in, making the whole process that bit easier. I thoroughly enjoyed my time on erasmus and would recommend it to all radiography students. | Apr 4, 2011 11:43 AM |

**Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?
Your written comments are very important and will help guide future students in making their choice.**

1	I have to say it was a really pleasure to absolve my exchange practical training in Lund, Sweden. I learned a lot during the last three months. After the first week I felt like a member of the team in the university hospital. I have also found some new friends and now I know people from all over world. The university in Lund is also excellent. The stuff is really nice and took care of me in all kind of situations. In my mind I have to say that time was running too fast and I would like to stay one month longer.	Aug 26, 2011 12:15 PM

Page 2, Q2. Any comments:

1	I didn't receive the email that others received with information about our first day at placement even though I gave my correct email address when I filled in the form and had also already had correspondence with this email address.	Apr 7, 2011 10:48 AM
2	The accommodation was satisfactory, we had a lot of cockroaches and in the morning we didn't have warm water	Apr 7, 2011 10:38 AM

Page 3, Q2. Any comments:

1	Expensive to fly from London	Apr 13, 2011 12:57 PM
---	------------------------------	-----------------------

Page 3, Q2. Any comments:

2	was expensive to fly from London	Apr 12, 2011 5:33 PM
3	arrangements from malta airport to accomodation was very convenient.	Apr 7, 2011 10:40 AM

Page 4, Q3. Comments:

1	I learned Maltese within the lessons in Malta not before coming to Malta.	Apr 7, 2011 10:50 AM
2	i did not have the opportunity to learn maltese at home	Apr 7, 2011 10:43 AM

Page 5, Q5. Comments:

1	We had many problems with the accomodation, some of which were sorted. Cockroaches, leaks, expensive, rude staff, broken kitchen appliances, noise disturbance etc.	Apr 13, 2011 12:59 PM
2	we had many problems with the accomodation, including; cockroaches, leaks, rude staff, excessive noise from neighbours etc.	Apr 12, 2011 5:34 PM
3	Considering the overall poor standard of accomodation and good price of other accomodation and good standard of accomodation near by the apartment was over priced for what we got. Everything cost extra WiFi, washing machine was 6 Euro, heating was extra, duvet wasn't washed for the whole of the stay.....no bleach was used in the bathroom and loo, the windows leaked, mould on the walls and ceiling...	Apr 7, 2011 11:00 AM
4	While our apartment was small it was clean and had everything we needed.	Apr 7, 2011 10:49 AM
5	although it was a good accomodation and they were very laid back about noise, etc. the rent was very expensive compared to student accomodation in belfast	Apr 7, 2011 10:44 AM
6	it wasnt extremely expensive but it was dearer in comparison to home	Apr 7, 2011 10:43 AM
7	very expensive especially having to pay for internet for studying.	Apr 7, 2011 10:41 AM

Page 6, Q5. Comments:

1	We walked to the university and hospital every day	Apr 13, 2011 12:59 PM
2	Bus fares were cheap but often it was more convenient to walk due to bus stop locations and the timetable. Walking wasn't safe though with no paths and a narrow busy road.	Apr 7, 2011 11:02 AM
3	long and dangerous walk (30 mins) or leave an hour early for the bus...	Apr 7, 2011 10:50 AM

Page 7, Q3. Comments:

1	Going out for drinks in the evenings was cheap but overall grocery shopping	Apr 7, 2011 11:06 AM
---	---	----------------------

Page 7, Q3. Comments:

was expensive. Lidyl was cheap but to go there it was a 20 plus minute walk on a nasty road but at least it was on the way from placment/uni so that was good. It just restricted you carrying much.

2 really cheap drinks comparing to holland Apr 7, 2011 10:41 AM

Page 8, Q2. Comments:

1 Our maltese culture lecturer made the module very enjoyable Apr 13, 2011 1:00 PM

2 Socially and Culturally activities were great. Apr 7, 2011 11:07 AM

3 Bith the radiographers and maltese students organised trips for us and helped us feel included. Our culture lecturer Mr Zammit organised very interesting outings for us too. Apr 7, 2011 10:52 AM

4 the maltese students and radiographers organised a few social nights out which were very good. cultural activities organised by mr. zammit were very useful and interesting. Apr 7, 2011 10:46 AM

5 the cultural visits were brilliant. Mr Zammit was a very very good lecturer Apr 7, 2011 10:45 AM

6 the trips were nice but to early Apr 7, 2011 10:42 AM

Page 10, Q2. Comments:

1 We have recieve part of erasmus funding Apr 13, 2011 1:01 PM

2 We recieved just over e700 which didnt cover acomodation Apr 7, 2011 10:53 AM

3 we received the ERASMUS grant along with our normal bursary at home. The erasmus grant was not much and just about covered our accomodation. Apr 7, 2011 10:47 AM

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

1 We were not allowed to do much in the way of clinical and were often not spoken to by staff Apr 13, 2011 1:01 PM

2 I think there should be less clinical hours in Malta for ERASMUS students as there is not enough to do and we have dissertations to do from our home universities which we need to spend time on. There are too many radiographers employed in Malta for the work there is available. Apr 7, 2011 11:12 AM

3 the department was over crowded both with students and especially staff making it difficult to take part. Apr 7, 2011 10:55 AM

4 the radiographers were all very friendly and helpful. Apr 7, 2011 10:48 AM

5 the department was overcrowded and because of that I was not able to do Apr 7, 2011 10:45 AM

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

much

- | | | |
|---|--|----------------------|
| 6 | Because the places where I did my placement were overcrowded it was sometimes not possible to practice my clinical skills. | Apr 7, 2011 10:44 AM |
|---|--|----------------------|

Page 12, Q1. In relation to your theoretical lectures and other teaching sessions during the programme please rate the following.

- | | | |
|---|---|----------------------|
| 1 | lessons should ideally be within clinical time not after. | Apr 7, 2011 11:13 AM |
|---|---|----------------------|

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

- | | | |
|---|--|----------------------|
| 1 | It was enjoyable, the thing that let it down was the accommodation which was expensive and had many problems with very unhelpful staff. The people I met during this exchange were very nice and I will remain in contact with them. I think if I was able to repeat the process I would go with my initial choice of InHolland. | Apr 13, 2011 1:04 PM |
| 2 | I think that ERASMUS is an important/good thing to do not just for your area of study but for your development as a person. I feel lucky that my university is part of the ERASMUS programme. I would advise others to come on ERASMUS. | Apr 7, 2011 11:17 AM |
| 3 | My overall impression of the Erasmus programme was a very, very good experience! Especially meeting the other Erasmus-students and hang out with them was the best experience of my life or almost the best experience of my life ;-). Special thanks to: Alex, Andre, Aoibheann, Brendan, Cathal, Clare, David, Diane, Johanna, Leonie, Louise, Lydia, Niamh, Roisin, Sander, Shauna, Sieb, Sonja and Steve! | Apr 7, 2011 10:59 AM |
| 4 | Winning. | Apr 7, 2011 10:58 AM |
| 5 | It was a very good programme and I learnt a lot from a different hospital. I would recommend that any student should take the opportunity to do Erasmus to experience the different culture and hospital protocols. PACEVILLE!!! | Apr 7, 2011 10:57 AM |
| 6 | I think that the Erasmus programme was a very good experience, because we can meet a lot of people with different nationalities, different lifestyles and customs. I really would like to have this experience again. Thank you for everything. | Apr 7, 2011 10:56 AM |
| 7 | Really enjoyed all aspects of the Erasmus programme. Was a very positive experience, couldn't fault it. I would recommend all students to go on Erasmus, especially to Malta. I experienced the differences between radiography in my home country compared to Malta, and it was nice to learn a different language and experience a different culture. We were a big group (19), which made the experience even more enjoyable. | Apr 7, 2011 10:55 AM |
| 8 | The Erasmus experience was awesome in Malta! The apartments are in a good position on the island. And the pharmacology course is different than in | Apr 7, 2011 10:52 AM |

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

my home country. This means I learned more about Radiography.

- | | | |
|----|--|----------------------|
| 9 | Malta was amazing and if I had to do it again I don't think I would change anything. The food and drink is very cheap compared to Belfast as well as the travelling costs. The accommodation however was quite expensive at 80euro a week but the complex is very laid back about socialising and they have a pool and washing machines, etc. so it was still worth it. | Apr 7, 2011 10:51 AM |
| 10 | It was really good. I'm very glad I chose Malta. The Erasmus programme was good and interesting. And Malta was a very nice place to spend this 3 months. | Apr 7, 2011 10:49 AM |
| 11 | I thoroughly enjoyed my experience in Malta, the Maltese students were very welcoming and friendly. Garden View was in a great location for night life, shopping and also transport to the hospital and also to Valetta. However the cost of internet in the accommodation is quite expensive as is the cost of rent. The clinical placement was rewarding however I found the language barrier quite imposing and some members of staff did not make the effort to try and include students in their conversation through talking English. | Apr 7, 2011 10:48 AM |
| 12 | From my time in Malta I have learnt a lot regarding Radiography, that I would not have learnt at home. The experience has made me more confident regarding the drugs used in the clinical imaging department. I have also learnt a lot concerning Malta through culture and language modules which I thoroughly enjoyed, especially getting to see the sites that were discussed in classes with Mr. Zammit. The Maltese lecturers and students were more than welcoming which made our 3 month stay in Malta enjoyable. I think every student should try to do the Erasmus programme. | Apr 7, 2011 10:48 AM |
| 13 | I wouldn't change this experience for the world. The Maltese language aspect was amazing to learn and a great social aspect. I enjoyed learning all about Malta and its culture and history. ERASMUS in Malta was better than I expected and I was so glad to see the practices of radiography in another country. | Apr 7, 2011 10:47 AM |
| 14 | Overall I had an amazing ERASMUS experience, it was some of the best 3 months of my life. I am so glad I decided to take part in the scheme and come to Malta. I have not only expanded my knowledge and experience in Radiography, but have also become more independent and made new friends for life. | Apr 7, 2011 10:47 AM |
| 15 | It was amazing! a great experience to do! I was here to improve my English. And it is a lot better after this 3 months. | Apr 7, 2011 10:47 AM |
| 16 | The Erasmus programme was great!! I am so glad I went! Best experience of my life! | Apr 7, 2011 10:46 AM |
| 17 | I really enjoyed my experience. Glad I didn't stay home. However I didn't get much clinical experience. | Apr 7, 2011 10:45 AM |
| 18 | I thought it was a great opportunity to learn about different cultures apart from Malta due to living with other nationalities within the group. It was a great chance to learn the Maltese language and culture which would not be available at home. Overall it was an experience I will never forget especially with the friends I have made. | Apr 7, 2011 10:45 AM |
| 19 | My Erasmus in Malta was amazing and an unforgettable experience. In my opinion everybody should join to this programme. I was expecting more of | Apr 7, 2011 10:45 AM |

to be experienced to be believed. Portuguese culture will surpass any idea you may have; lively, warm and genuinely kind. The college was like home after only one week, and the clinical tutors were as protective and proactive as though we were their own students. The Porto experience was the perfect balance of clinical experience and development and also of the Erasmus experience; meeting new friends, learning a new language, and experiencing a new culture.

- | | | |
|---|---|-----------------------|
| 2 | I love Portugal, i had a fantastic time in here. thanks to the portugease people and especially the teachers from school and the collegues in the hospitals! | Mar 30, 2011 7:29 PM |
| 3 | I will never forget this great, fantastic experience. I met a lot of new people, Portugese people and erasmus students. I really liked the city and the country. We travelled a lot and visited cities outside Porto. All the people are so nice and friendly, in school and also in the hospitals! They always want to help you and want to make sure everything is fine with you. There is a really good studentlife in Porto. There are a lot of students from different universities, but also a lot of erasmus students.. what is so much fun. I have never regretted it to come to Porto. It was amazing, and the time just has flown by, 3 months is just too short! I'm defintily coming back to Portugal! | Mar 30, 2011 5:36 PM |
| 4 | i thoughorly enjoyed my time here, I learnt alot about different counttries and different cultures as I was living in a house full of different nationalities as part of an erasmus house! people were generally very friendly and helpful. my second clinical placement I loved every minute of it, brand new centre and I was able to work and enjoy it, and the workers all spoke to me in english and make me feel part of the team. I didnt enjoy any of the classes. Language class was of some benefit but it took a while and because you dont have to speak portugeuse you tend not to remember alot of it. I dont think the bursary money is enough and at the end I was struggling! I would recommend anyone to go on erasmus!!! | Mar 23, 2011 10:38 PM |

1	I didn't felt part in one of the three teams while in clinical	Mar 25, 2011 4:08 PM
---	--	----------------------

Page 11, Q1. In relation to your clinical practice / placement during the programme please rate the following.

2	I felt like a member of the team while in clinical, in 3 of the 4 clinical placements is this true.	Mar 25, 2011 2:06 PM
---	---	----------------------

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

1	It was a lifetime experience. Every student should go on exchange.	Mar 27, 2011 5:01 PM
---	--	----------------------

2	I had a great time here and I've learned a lot.	Mar 25, 2011 4:10 PM
---	---	----------------------

3	I've learned a lot in Finland. In the Netherlands we did not have an emergency program. So it was nice to have so much practice in this subject. Our tutor (Lasse) has arranged everything very good. The student tutors were also great. They gave us an introduction to the city and we had a lot of fun with them on parties. In the weekends we also travelled a lot to Sweden/Estonia/Helsinki and Lapland. Everything was very nice.	Mar 25, 2011 3:47 PM
---	--	----------------------

4	Really great! In the first week when I needed, everybody would help you as much as they can. After the first weeks you only have to ask for something and there are 3 people who would like to help you.	Mar 25, 2011 2:07 PM

| 1 | Our host institution is FH Camous Vienna, Austria which is not an option on the previous page. We arrived to our accomodation totally unprepared and underinformed by the FH Campus International Office. We had no kitchen utensils etc I feel that students could be have been better informed of this as we were stressed in the first 2 weeks and a lot of time was spent trying to get organised in the apartment. | Aug 26, 2011 11:05 AM |
| 2 | we stayed in vienna austria, which was not an option on yuour host institution list. although the radiographz department of the college was extremely helpful to us throughtout our stay, the international office was not. i would like to stress how nice the radiography department were to us however, they were extremely helpful | Aug 26, 2011 11:00 AM |

Page 13, Q1. What was your overall impression of the Erasmus programme based on your personal experience?

Your written comments are very important and will help guide future students in making their choice.

- | | | |
|---|---|-----------------------|
| 1 | <p>Erasmus in Vienna was brilliant. The radiography lecture team are very accommodating and eager to help us in any way. The clinical was very good some radiographers are more helpful than others but this is a problem you can find anywhere in the world. We had a great opportunity to attend the ECR and HENRE meetings. The city is amazing and there is always something to go and see or do. It is very easy travel to other countries from Vienna, we went to Budapest, Ljubiana and Bratislava but you also reach Prague and Venice quite easily. My one criticism is the International Office in FH Campus, from UCD I am used to support staff helping students and giving them the information we require here one particular staff member was very unhelpful and it felt like a constant battle trying to get help. We needed quick pay cards to pay for our food in the hospital and do laundry and this staff member ignored our problem until we had to get kind of angry which is very frustrating so one major thing for next years radiography students is THE INTERNATIONAL OFFICE NEED TO BE MORE HELPFUL! (we asked where the post offices are and how do you recognise them, she couldn't tell us.... very disheartening we weren't sure if she just didn't like us or what the story was) Apart from this I had a great time and the Radiography Department were brilliant and we learned lots and met so many new friends.</p> | Aug 26, 2011 11:06 AM |
| 2 | <p>I really enjoyed my time on Erasmus, I thought it was extremely beneficial to my education in radiography and I think I have gained life long knowledge in both the areas of CT and angiography. The radiography department were very kind, helpful and understanding of us and were very quick to act when we expressed any concerns or worries. The international office, which is separate to the radiography department, were not as helpful. No prior information about accommodation was given us and we arrived with no kitchen utensils etc. When we asked where a cheap place to purchase these would be, we were not given any useful help. This is just one brief example of how the international office were unhelpful. We were not informed how to obtain quick pay cards which were needed to do our laundry and waited 3 weeks to be helped with this, which in the end took 2 minutes to rectify. I would again like to stress that the radiography dept. did their utmost, to make our stay as entertaining, educational and stress free as possible.</p> | Aug 26, 2011 11:01 AM |
